VERDICT

BORDERLINE

12 points against a threshold of 15: inside the Exceptions Panel band.

ROUTE

EXCEPTIONS PANEL

Fallback: register him in a later window once his numbers improve.

DECIDING FACTOR

No senior caps in the assessment period, and that alone keeps him short. Without a call-up, the case rests on his club record: a regular starter for a top-half Série A side.

OUR READ

Viable, but not on points alone. The panel case is realistic on his club record, and a call-up could close the gap outright. The full audit picks the stronger route and lists the evidence it needs.

WHAT COULD CHANGE IT

- A senior call-up in the next window
- More league minutes before registration
- Minutes recounted without injury absence
